Experiment 8:

Study of a terminal based text editor Vim, and perform the operations such as cursor operations, manipulate text, search for patterns, global search and replace…….

Note:

Note 1: study, based on the given video.
Note 2: Instal vim, if it is not installed.
          (/$ sudo apt install vim)
Note 3: Open file vimtutor, and study based on that tutorial
          (/$ vimtutor)
